MENSCH-JODER WEDDING

Earl B. Joder and Miss Bessie Mensch were united in marriage at the home of Mr. and Mrs. V. W. Dundas, in Los Angeles on the 11th of this month. Mr. Joder is now a sergeant in the 158th regiment at Camp Kearny, and was formerly a resident of Kingman. Mrs. Joder is a daughter of Mr. and Mrs. W. A. Mensch, and is well and favorably known here. The happy couple have the best wishes of a large number of friends in this county for a long and happy married life.

HAS REGISTRATION CARD

A Mexican, who is said to have a registration card from Mohave county exemption board, was found dead in front of a Japanese pool hall at Satcoy, California, a few days ago. The man's name was given as Luis Cervantes, but no such name appears on the rolls of the local exemption board. It is probable that there is an error either in name or in the county of registration. The fact is that practically every Mexican registered at the first registration in this county made his get-away as soon thereafter as possible and no attempt has been made to round them up. These fellows, who had no knowledge of English would have been of little use in the army, anyhow.

RETURNS FROM COAST

John Mulligan and son Leo returned Thursday evening from the coast. Mrs. Mulligan and daughter, Mrs. Freeman, will remain in Los Angeles for a month or two.

Musings of Doc, the Duck

"While we are still on the subject of civic pride," says Doc the Duck, "I might say that it sure 'gets my goat' to see some of our citizens so eager in the pursuit of the 'elusive dollar' that they entirely have forgotten that there are other people living in the same town with them, and that these same people have any rights whatever."

"The most flagrantly noticeable one of these cases that has been brought to my attention," says the Duckling, "is a fence on the east end of Beale street, which cuts out into the sidewalk so much that when two persons are walking abreast, when they arrive at this point, they are compelled to single file to get through or take the preference of going out into the street."

"It seems perfectly reasonable," says the Doc, "that an owner of property in the center of the residential district, would have pride enough to make his property attractive, let alone, having his fence running into the sidewalk, but it seems not and I guess SUCH IS LIFE."

MOTORS TO GRAND CANYON

H. H. Watkins and wife, Mrs. N. W. Tarr and Miss Dollie Hopkins, sister and niece of Mrs. Watkins, motored to the Grand Canyon Tuesday last. They will take in all the sights of the wonderland. Mrs. Tarr and Miss Hopkins will visit for some time in Kingman after their return.

PHELPS-DODGE COMPANY ANNOUNCEMENT OF WAGE RAISE

Almost simultaneously with the announcement that the price of copper would be made 26 cents, an advance of 2½ cents, came the announcement of A. T. Thomson, assistant to the president of the Phelps-Dodge corporation, of an increase in the wages of the miners employed by their organization. This announcement is typical of the policy of the Phelps-Dodge companies, the Copper Queen branch in particular having the record of being a leader in all wage advances. They are justly proud of the fact that their men have never found it necessary to strike for higher wages, the company watching closely increased costs and anticipating such requests.

A few days after the preliminary announcement that wages would be raised came another saying that they would be raised 50 cents a shift. It was not anticipated that the raise would be as much as this, because of the fact that the mining companies have been paying on the basis of 26-cent copper. Moreover, according to the sliding scale of wages agreed upon by the companies some time ago, the wage raise for each one cent additional in the price of copper would be 12½ cents a shift; thus 2½ cents additional would bring the raise agreed upon about 35 cents, so that the announcement that it would be 50 cents was doubly welcome. Before July 1 the companies were paying wages based on 26 cent copper, although they were receiving but 23½ cents. Now they are paying on the basis of 30-cent copper, and receiving 26 cents.

The increase in the price was due to persistent efforts on the part of the producers and the employees alike, the negotiations for which extend over a

considerable period of time. The sole purpose of these efforts was to get a price that would allow for higher wages; it will mean little or nothing to the profits of the company.

It is undoubtedly true that a few of the companies would have been able to pay a slightly higher wage with 23½ cent copper, but if these few had done so, it would have caused much instability in the labor situation, trouble in the camps which could not afford an increase, curtailing of production in properties of higher costs without a corresponding increase in production, would have effectually stopped smaller producers. The condition would have reacted to the ultimate disadvantage of the country as a whole by a lessened production of the red metal at higher costs.

A varying scale of wages in different mining camps closely situated would have brought about an excess of labor in some camps and a shortage in others. It would have been a condition similar to that reported from the shipyards, where stories of high wages led to an excess of labor.

There is no question about the laboring man being entitled to more wages, for the cost of living is increasing rapidly. Simultaneous announcements of the increase of the price of copper and the increased wage scale indicate clearly the purpose of the effort for the higher price, even though the message of the president accompanying this increase did not mention the fact.

Mr. Thomson expressed his opinion that the increase would be retroactive, beginning July 1, and it is probable that it will be general in scope.

STEEL SCRAP WANTED

The United States government has created a bureau to be known as American Iron and Steel Institute, which is now appealing to the people to conserve all steel and iron junk for use of the foundries in the manufacture of war material. Emory E. Smith, of San Francisco, has been appointed commissioner for the Pacific coast. It is up to the farmer, mining companies and individuals to see that all scrap is carefully preserved and that it will be put to the best use possible in aid of the government. If you have quantity you will inform this office or write direct to the Pacific Coast commissioner.

SCHOOL BUILDING BURNS

The Nogales grammar school, valued at \$75,000, was destroyed by an incendiary fire last Wednesday. Two months ago the building was damaged by fire and was in course of repairs when the last fire completely destroyed it.

WILL STOP PUBLICATION

The Santa Fe educational magazine, the Earth, has issued its last edition. The publication was devoted to the country through which the Santa Fe ran, especially boosting the agricultural, sheep raising and cattle industries.

VEGETABLE PROTEIN FOR CHICKENS

Among the poultry experiments now being conducted on the government farm at Beltsville, Md., are a number of feeding tests in which the value of vegetable protein is being compared with beef scrap. One pen of chickens is fed a mash containing 20 per cent beef scrap produced in five and one and one-half months an average of 63 eggs per hen. Another pen fed a mash consisting of 10 per cent peanut meal and 10 per cent beef scrap produced an average of 53.4 eggs per hen during the same period. The hens in a third pen which were fed a mash consisting of 10 per cent soy-bean meal and 10 per cent beef scrap averaged 44.4 eggs for the period. In a fourth pen cottonseed meal and velvet bean meal were fed as part substitute for beef scrap with the result that the hens produced a fair egg yield, though not as high as the hens in the first pen mentioned.

SELLS CATTLE RANGE

Wade Jones, owner of the Anvil Rock range, has sold range and cattle to Plummer & Davis for about \$20,000. Mr. Jones' range is small but it lies alongside of that of Plummer & Davis, which gives it added value to these cattlemen.

Put the children's pennies into War Saving Stamps.

VISITING IN KINGMAN

Mrs. Annie E. Hart, mother of County Treasurer I. N. Hart, accompanied by her daughter, Mrs. Norma Hoag and daughter, are visiting in Kingman. Mrs. Hoag left for home yesterday evening, and Mrs. Hart will remain here a few months.

NEW FREIGHT RULING

On and after this date all transportation charges must be on a cash basis. This rule applies to all roads in the coast divisional, which includes the Santa Fe, Southern Pacific and Western Pacific. All present arrangements by which freight bills are to be remitted through banks to other agencies are to be discontinued today (July 27). Shippers having one or more agencies in one or more towns or cities, must either arrange for cash payment of charges locally accrued or authorize their representatives to make sight drafts on the main office, with freight bills attached, or authorize local railroad agents to make such drafts. Such shippers or consignees should file with agent at their main office location credit bond in amounts sufficient to cover credit to be extended at all branch agencies, accompanied by letter specifying location of their branches at which applicable.

All freight bills must be paid upon presentation, claims being presented for any alleged errors. The general rule of collecting transportation charges at time of delivery will be observed.

SONGSTERS ENTERTAIN

The Misses Edith Cagle and Louise Lewis entertained the patrons of the Rose Tree sweet shop last Thursday night with a number of pleasing songs. The young ladies have excellent voices and they were received with generous applause.

WELCOME TO OUR CITY

Miss Sadie Gibson, of Winslow, has accepted a position with the Central Commercial company in the grocery department. Miss Gibson is already popular and is sure to be a welcome addition to Kingman.

RETURNS FROM LOS ANGELES
C. W. Herndon, the well known Kingman attorney, returned yesterday morning from Los Angeles, where he has been enjoying a two weeks' vacation.

ANOTHER WARRIOR

County Attorney S. D. Stewart returned from Los Angeles a few days ago and brings news of the arrival of another boy in his family. Mother and babe are getting along nicely.

MEET WITH TAX COMMISSION

This week the members of the local board of supervisors, the clerk and the assessor went to Grand Canyon, where they met with the state tax commission. Those going from Kingman were W. B. Stephens, C. W. Lynch and L. H. Foster, of the board, and Frank Van Marter, clerk, and Frank L. Hunt, assessor. Mrs. Stephens accompanied Mr. Stephens on the trip. The matters affecting taxation in this county was discussed and settled upon.

JUDGING FROM THE JOKES

"I think I'll put a joke book under this cornerstone. Some future generation may dig it up."
"I wouldn't deposit a joke book, however. They might confuse us with the Babylonian era."—Louisville Courier-Journal.

Better save a little now than give it all to "Kaiser Bill."—Buy a stamp.

SILVER LEAD MINES OF BISBEE COUNTRY

The Copper Queen is just getting ready to go into commission in the reduction of silver-lead ores. For years the district has been known as a copper section and few people realize that it has several big silver-lead mines. For a long time the Shattuck-Arizona has been shipping lead ore to the El Paso smelter, but now this ore and that of the Copper Queen will be milled, the silver saved in bullion and the lead reduced to high grade concentrates. About 1500 tons of ore will be handled daily in the mill. The Copper Queen is said to have two million tons of this class of ore in sight.

With the three metals this district should add many years to its lease of life and diversify mining in that section.

Better save a little now than give it all to "Kaiser Bill."—Buy a stamp.

STRUCK BY BALL; BADLY INJURED

In a ball game that was being played at El Paso Sunday last, between the Bisbee team and the El Pasos, a pitched ball struck Harry Price in the neck knocking him out. He was so badly injured that for a while his life was despaired of. He was taken to the Copper Queen hospital at Bisbee Tuesday last and report has it that he is getting along all right.

PATRIOTIC MORMONS

The patriotic zeal of the Mormon church and its full confidence in the successful termination of the war are shown by its action in cleaning out the granaries of wheat that have been maintained in its communities for many years past as insurance against want. In Utah alone the Mormon storehouses have yielded over 250,000 bushels of wheat.

Food will win the war—save it.

Young Ladies:

We want to extend a special invitation to the young ladies of this community to open an account at this bank. You are cordially invited to come in and have the reason explained to you. You will find a delightful surprise at the simplicity of keeping an account and we assure you that the business training, saving habit and financial help thus obtained will be invaluable to you. It is not necessary for you to have a large amount to deposit—we open an account for any amount, however small. We will be pleased to see you at any time.

CLEANING AND DYEING IS CHEAPER THAN BUYING
—providing you send it to us—

Otherwise you run the risk of having your work done by "back-room" cleaners who have neither the experience nor the facilities necessary. When you send it to us you are sure that only the best dyes will be used (the shortage of European dyes has not affected us). You are sure of the best possible workmanship—and the lowest possible price.

Write our special Mail Order Department for price list and expert advice on your cleaning and dyeing problems.

Remember—we pay return postage on all orders.
